William E. Aaronson
ASSOCIATE PROFESSOR OF RISK, INSURANCE AND HEALTHCARE MANAGEMENT

Dr. William E. Aaronson has researched the long-term care industry, publishing his work in prestigious journals such as Medical Care, Health Services Research and Medical Care Research and Review. He recently completed work on a five-year grant to develop primary care in Ukraine and is actively researching the efficiency of Ukrainian healthcare. His results have been reported in leading journals such as Health Economics and the Journal of Productivity Analysis. Dr. Aaronson’s work on globalization of healthcare management education has appeared in the Journal of Health Administration Education. He is a longtime member of the editorial board of Medical Care Research and Review. At the Fox School, Dr. Aaronson also serves as Assistant Dean for PhD Programs and Director of the Cochran Center for Research.

Jacqueline S. Zinn
PROFESSOR OF RISK, INSURANCE AND HEALTHCARE MANAGEMENT

Dr. Jacqueline S. Zinn, a Deaver Fellow, is a nationally recognized authority on quality and access in long-term care services. Dr. Zinn is co-principal investigator on a five-year NIH-funded study of nursing home response to public release of quality of care information. She has published more than 50 peer-reviewed articles in leading journals, such as Health Services Research, Medical Care and Milbank Memorial Fund Quarterly. Dr. Zinn was the 1996 recipient of the Thompson Prize for Young Investigators from the Association of University Programs in Health Administration and a 1997 co-recipient of a Robert Wood Johnson Clinical Investigator Award. She served as chair of the Healthcare Management Division of the Academy of Management and as a member of the Accreditation Council of the Commission on Accreditation for Healthcare Management Education.

Thomas E. Getzen
PROFESSOR OF RISK, INSURANCE AND HEALTHCARE MANAGEMENT

Dr. Thomas E. Getzen researches the macroeconomics of health, forecasting medical expenditures, physician supply, price indices and public health economics. The Society of Actuaries-Getzen Model of Long Term Healthcare Cost Trends is frequently referenced and consulted by actuaries, policy-makers and the media. His textbook, Health Economics: Fundamentals and Flow of Funds, is used in academic programs throughout the world. Dr. Getzen has served as visiting professor at Princeton University, the Wharton School and the University of York. In addition to his involvement on a number of corporate and nonprofit boards, Dr. Getzen is founder, executive director and chief executive officer of the International Health Economics Association, which has 2,400 academic and professional members in 72 countries.
MASTER OF HEALTHCARE MANAGEMENT

We are pleased to announce the initiation of a Master of Healthcare Management program, which is a continuation of the CAHME accredited MBA in Healthcare Management degree. The program restructuring continues to provide a solid business foundation and even greater industry-specific knowledge and skill development that is important for building a career in the growing healthcare sector of the economy.

The Department of Risk, Insurance & Healthcare Management also offers an MS in Healthcare Financial Management for students who wish to specialize in that field and two concentrations in the MBA program: Health and Life Sciences Innovation for those interested in being a part of building innovative healthcare firms and Pharmaceutical Management for those interested in applying their knowledge in the regional pharmaceutical and biotech industries.

The Fox School’s Graduate Program in Healthcare Management is ranked Top 30 in the Nation by U.S. News & World Report, 2009
