Bachelor of Science in Economics
Bachelor of Art in Mathematics
Minor in Statistics

RESEARCH INTERESTS

Insurance Pricing, Insurance Economics, Decision-making under Risk and Uncertainty

WORKING PAPER

"Wealth Effects on Optimal Prevention for Correlated Risks" with Richard Peter

This paper studies the wealth effects on optimal prevention in a two-period model when there are endogenous risks. The research in this paper reveals how a risk-averse agent's optimal levels of prevention change as his wealth level for each period increases.

RESEARCH EXPERIENCE

Research Assistant

Department of Risk, Insurance, and Health Management Fall 2020 - Present
Fox School of Business, Temple University
